Financial Careers Ltd is a recruitment-staffing business that values and promotes positive action against climate change through business partnerships and our daily working practices.

Financial Careers Ltd recognise our responsibility to minimise the use of materials in the workplace and educate staff to be responsible towards our energy consumption.

We are committed to utilising recycled and recyclable materials and encouraging business partners to do likewise.

We operate in a paperless office environment and use electronic means of communication wherever possible.

All lights and non-essential electrical equipment will be switched off when not being used and at night and on the weekends. The correct recycling of waste is constantly adhered to.

All paper-based products will be recycled. Printer cartridges will be returned to the manufacturer for re-use. Office glass, plastic and tins are collected and disposed of in the appropriate containers provided by the local authority. Car sharing for staff members is actively promoted along with encouraging staff to walk or cycle to and from work when possible. We take climate control seriously and maintain a sense of responsibility and best practice with environmental issues.
